I / We agree that profile of _____ is appropriate for me / us and permit Leishman Financial Services Pty Ltd to retain my/our Tax file number(s) on file.

Signed _____ Name: _____ date: __ / __ / __

Signed _____ Name: _____ date: __ / __ / __

Profile Definitions:

(8 to 11) You are a **conservative** investor. Risk must be very low and you are prepared to accept lower returns to protect your capital. The adverse affects of tax and inflation will not concern you, provided your initial investment is protected. Your time frame is very short term, less than 3 years. You aim for 100% income and no growth from your portfolio.

(12 to 17) You are a **cautious** investor seeking better than basic returns, but risk must be low. Typically you would seek to protect the wealth which you have accumulated, you may be prepared to consider less aggressive growth investments. Your time frame is approximately 3 years. You aim for 80% income and 20% growth from your portfolio.

(18 to 23) You are a **defensive** seeking better than basic returns from a balanced portfolio. You may be prepared to consider moderate growth investments and a strategy to cope with tax and inflation. Your time frame is 3 to 5 years. You aim for 60% income and 40% growth from your portfolio.

(24 to 29) You are a **prudent** investor who wants a balanced portfolio to work towards medium to long term financial goals. You require an investment strategy which will cope with the effects of tax and inflation. Calculated risks will be acceptable to you to achieve greater returns. Your time frame is approximately 5 years. You aim for 40% income and 60% growth from your portfolio.

(30 to 34) You are an **assertive** investor, probably earning sufficient income to invest most funds for capital growth. You require a balanced portfolio, but more aggressive investments may be included. Your investment strategy must cope with tax and inflation. While prepared to accept higher volatility, your primary concern is to accumulate assets over the long term. Your time frame is 7 years. You aim for 20% income and 80% growth from your portfolio.

(35 to 39) You are an **aggressive** investor prepared to compromise portfolio balance to pursue potentially greater long term returns. Your investment choices are diverse, but carry with them a higher level of volatility and risk. Security of capital is secondary to the potential for wealth accumulation. Your time frame is very long term, 10 years or greater. You aim for 100% growth from your portfolio.
